

Increasing Your Capacity and Capabilities

The JetCAPS TowerJet™ 8000 extends the capacity of Tray 1 on your HP LaserJet printer from 100 to beyond 2500 sheets for odd-sized paper and heavier media.

Are people in your organisation frustrated by the 100-sheet limit of Tray 1 when they need to print large jobs on special media? Insufficient paper capacity affects your productivity in more ways than just the time needed to refill the input tray. With up to 2500 sheet capacity, the TowerJet eliminates the overhead of refilling, and enables the unattended printing of large print jobs, even over-night.

The JetCAPS TowerJet 8000 makes using other paper and page formats possible without having to constantly stand by the printer to feed and guide it. With the TowerJet you can print conveniently even on heavier paper that requires the printer's straight paper path. And you can use outsized paper formats with capacities that exceed the printer's standard capabilities.

How the JetCAPS TowerJet™ 8000 Works

Simply remove the Tray 1 cover and slide and snap the JetCAPS TowerJet 8000 into place. You don't need to make any other change to the printer. The TowerJet 8000 can be used from any application by simply selecting Tray 1 in the standard printer driver.

Please also consider that you may need output extensions to make sure your printer can collect the full volume of paper that the vast input capacity of the JetCAPS TowerJet 8000 makes possible.

Printed on an HP Color LaserJet Printer

JetCAPS TowerJet™ 8000 Specifications

Supply Capacity

- Paper capacity 2500 sheets at 80g/m²

Paper Qualities

- Paper weights from 80g/m² to 200g/m².

Paper formats

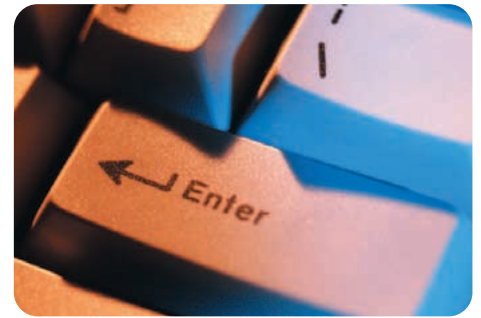

- Width adjustable (stepless) from 98 mm to 298 mm
- Length adjustable (stepless) from 190 mm to 450 mm

Selecting the JetCAPS TowerJet™ 8000 for your Requirements

The JetCAPS TowerJet 8000 is suitable for use with any HP LaserJet 8000/8100 series printer, and with the HP LaserJet 5Si.

The standard TowerJet 8000 is a desktop model for paper lengths up to 210mm. Optional lift extensions are available for longer paper sizes and stands for floor model configurations:

- Lift Extension Kits supporting paper lengths up to 300mm and 450mm.
- A Stand for using the TowerJet 8000 on a printer with other paper handling options (HP 2000-sheet HCI, HP 2x500-sheet MIT, JetCAPS 4-Tray TowerFeed, HP 3000-sheet stacker, HP Mailbox).
- The Extended Stand for using the TowerJet 8000 on a printer with the 6-Tray JetCAPS TowerFeed.
